2022 21st International Symposium on Distributed Computing and Applications for Business Engineering and Science (DCABES)

DCABES 2022

Table of Contents

Preface ..... **xiii**
Conference Organization ..... **xiv**
Scientific Committee ..... **xv**
Sponsors ..... **xvii**

Big Data and Data Mining

Machine Learning Prediction Based Integrated Smart Energy Management System to Improve Home Energy Efficiency 1
Ahmed Al-Adaileh (Kingston University, UK) and Souheil Khaddaj (Kingston University, UK)

Research on Demand Forecasting and Operation Model of Elderly Service Beds 5
Xinlong Li (Fudan University, China) and Zhirong Fan (Fudan University, China)

Analysis and Research on the Adjustment of Energy Consumption Structure Based on the "Dual Carbon" Target 10
Rui Liu (Wuxi Taihu University, China)

Frequent and High Utility Itemsets Mining Based on Bi-Objective Evolutionary Algorithm with an Improved Mutation Strategy 15
Chongyang Li (Jiangnan University, China)

Regional Differences in the Development of Digital Inclusive Financial Services in China 19
Yuhan Xiong (Beijing Normal University Zhuhai, China), Hanya Yu (Beijing Normal University Zhuhai, China), and Ai Xu (Beijing Normal University Zhuhai, China)

Evolution Enhanced Resilience of Protein Interaction Networks 23
Jiarui Zhang (Yichun University, China) and Dewu Ding (Yichun University, China)

Machine Learning Enabled Missing Measurement Data Detection and Recovery of Electricity Grids 26
Min He (State Gird Ningbo Power Supply Company, China), Jia Yang (State Gird Ningbo Power Supply Company, China), Simeng Zheng (State Gird Ningbo Power Supply Company, China), and Yinghe Lin (Zhejiang Huayun Information Technology Co., Ltd., China)

Hybrid Intelligent Machine Learning Based Ultra-Short Term Generation Prediction of Photovoltaic Systems 30
Yongguang Wang (State Grid Hulun Buir Power Supply Company, China), Chuncheng Cao (State Grid Hulun Buir Power Supply Company, China), Zhimin Wo (State Grid Hulun Buir Power Supply Company, China), Songtao Tian (State Grid Hulun Buir Power Supply Company, China), Yang Bai (State Grid Hulun Buir Power Supply Company, China), and Xu Tai (State Grid Hulun Buir Power Supply Company, China)

Application of Internet of Things Technology in Power Security Control 34
Meiyu Pang (Wuxi Taihu University, China) and Li Wang (Wuxi Taihu University, China)

Research on Medical Big Data of Health Management Platform Based on Hadoop 38
Xuan Zheng (GanNan Medical University, China) and Xiaopan Ding (GanNan Medical University, China)

Application of Data-Driven Method for Automatic Machine Learning in Economic Research 42
Wei Wang (China University of Mining and Technology, China; Wuxi Taihu University, China), Wenbo Xu (Jiangnan University, China), Xiang Yao (Wuxi Taihu University, China), and Huajun Wang (Wuxi Taihu University, China)

Deep Learning

A Comparison Study of Graph Neural Network and Support Vector Machine 46
Siying Lin (Université Paris-Saclay, CentraleSupélec, MICS, France), José Alves (Université Paris-Saclay, CentraleSupélec, MICS, France), Francesca Bugiotti (Université Paris-Saclay, CentraleSupélec, MICS, France), and Frédéric Magoulès (Université Paris-Saclay, CentraleSupélec, MICS, France)

Point-Cloud-Based Deep Learning Models for Finite Element Analysis 50
Meduri Venkata Shivaditya (Universite Paris-Saclay, CentraleSupélec, France; Universite Paris-Saclay, CNRS, CentraleSupélec, France), Francesca Bugiotti (Universite Paris-Saclay, CentraleSupélec, France; Universite Paris-Saclay, CNRS, CentraleSupélec, France), and Frédéric Magoulès (Universite Paris-Saclay, CentraleSupélec, France; Universite Paris-Saclay, CNRS, CentraleSupélec, France)

Graph Neural Network-Based Surrogate Models for Finite Element Analysis 54
Meduri Venkata Shivaditya (Universite Paris-Saclay, CentraleSupélec, CNRS/LISN & MICS, France), José Alves (Universite Paris-Saclay, CentraleSupélec, CNRS/LISN & MICS, France), Francesca Bugiotti (Universite Paris-Saclay, CentraleSupélec, CNRS/LISN & MICS, France), and Frédéric Magoulès (Universite Paris-Saclay, CentraleSupélec, CNRS/LISN & MICS, France)

Diagnosis of Power Operation and Maintenance Records Based on Pre-Training Model and Prompt Learning 58
Jun Jia (Electric Power Research Institute of State Grid Jiangsu Electric Power Co., Ltd, China), Hui Fu (State Grid Jiangsu Electric Power Co., Ltd, China), Ziyang Zhang (State Grid Jiangsu Electric Power Co., Ltd, China), and Jinggang Yang (Electric Power Research Institute of State Grid Jiangsu Electric Power Co., Ltd, China)

Recognition of Disordered Workpieces Based on 3D Laser Scanner and RS-CNN 62
Sikui He (China University of Mining and Technology, China), Bin Ye (China University of Mining and Technology, China), Huijun Li (China University of Mining and Technology, China), and Yong Gao (China University of Mining and Technology, China)

An Online Classroom Question Answering Evaluation System Based on Voiceprint Recognition and Behavior Recognition 66
Xiangyun Wang (Huaiyin Institute of Technology, China), Jieyu Liang (Huaiyin Institute of Technology, China), Xiang Xu (Huaiyin Institute of Technology, China), Xiang Li (Huaiyin Institute of Technology, China), and Quanyin Zhu (Huaiyin Institute of Technology, China)

Radar Emitter Signal Recognition Based on Coordinated Attention 70
Jiajun Ding (Jiangnan University, China), Yunyang Yan (Jiangnan University, China), and Yian Liu (Jiangnan University, China)

Research on New Fuzzy Deep Learning Model and Its Construction Technology 74
Xiaofeng Yao (Wuxi Taihu University, China)

Contour Extraction Method and Implementation of Active Contour Model Algorithm Based on N-Order Bezier Curve for Cardiac Medical Images 79
Hailong Du (Wuxi Taihu University, China)

Fault Diagnosis of Power Grid Based on Convolutional Neural Network 82
Liping Qu (Beihua University, China), Jie Zhang (Beihua University, China), and Tailu Gao (Beihua University, China)

Group-Based Sparse Coding with Adaptive Dictionary Learning for Image Denoising 87
Jiaying Wang (Fuzhou University, China), Meiqing Wang (Fuzhou University, China), Hang Cheng (Fuzhou University, China), Rong Liu (Fuzhou University, China), and Fei Chen (Fuzhou University, China)

Intelligent Judgment of Rotating Machinery Based on Multi-Scale Parallel Network and Attention Mechanism 91
Zhixiang Fan (Jiangnan University, China) and Pengjiang Qian (Jiangnan University, China)

Identifying Anti-Tumor Heat Shock Proteins Based on Evolutionary Information using Deep Learning Method 95
Yi Fu (Wuxi City College of Vocational Technology, China; Wuxi Research Center for Environmental Science & Engineering, China), Ji Zhao (Wuxi City College of Vocational Technology, China; Wuxi Research Center for Environmental Science & Engineering, China), Juan Mei (Wuxi City College of Vocational Technology, China; Wuxi Research Center for Environmental Science & Engineering, China), and Yi Ding (Wuxi City College of Vocational Technology, China; Wuxi Research Center for Environmental Science & Engineering, China)

An Improved Target Detection Algorithm Model for Garment Image Detection 99
Chunrui Yang (Guangdong University of Technology, China), Weiwei Tian (Guangdong University of Technology, China), and Lichen Zhang (Guangdong University of Technology; Guangzhou Vocational and Technical University of Science and Technology, China)

Single-Stage Multi-Scale Receptive Field Improvement Lightweight Object Detection Network Based on MobileNetV3 103
Zhenkai Tong (Wuhan University of Technology, China), Yefu Wu (Wuhan University of Technology, China), and Yang Liu (Chongqing Guoyuan Port Co.Ltd, China)

Calling Behavior Detection of Port Truck Drivers Based on Deep Learning 107
Jing He (Wuhan University of Technology, China), Yefu Wu (Wuhan University of Technology, China), and Jinyong Xiao (Chongqing Guoyuan Port Co., Ltd, China)

Multi-Scale Multi-Stage Single Image Super-Resolution Reconstruction Algorithm Based on Transformer 111
Wei Wang (YiChun University), Yinfang Zhu (YiChun University), Dewu Ding (YiChun University), Jing Li (YiChun University), and Yu Luo (Guangdong University of Technology)

Algorithm Implementation and Application

Multilayer Perceptron-Based Surrogate Models for Finite Element Analysis 115
Lawson Oliveira Lima (Université Paris-Saclay, CentraleSupélec, MICS, France), Julien Rosenberger (Université Paris-Saclay, CentraleSupélec, MICS, France), Esteban Antier (Université Paris-Saclay, CentraleSupélec, MICS, France), and Frédéric Magoulès (Université Paris-Saclay, CentraleSupélec, MICS, France)

The Complexity Attachment in Modernization Journey 119
Harveena Rambarassah (Kingston University, UK) and Souheil Khaddaj (Kingston University, UK)

Research on Jamming Resource Allocation Based on Improved Pelican Optimization Algorithm ... 123
Junwei Zhao (Jiangnan University, China), Yian Liu (Jiangnan University, China), and Hailing Song (Naval Research Institute, China)

Application of Improved Northern Goshawk Optimization Algorithm in Radar Networking Optimization 128
Shixing Liu (Jiangnan University, China), Yian Liu (Jiangnan University, China), and Hailing Song (Naval Research Institute, China)

Image Dehazing Algorithm Based on Particle Swarm Optimization for Sky Region Segmentation .. 132
Hao Zhou (Southwest University, China; Chizhou University, China; Chongqing College of International Business and Economics, China), Changjiu Yuan (Chizhou University, China), Hongbo Pan (Chizhou University, China), Yue Yang (Chizhou University, China), Ziyan Wang (Chizhou University, China), and Xiangyang Chen (Basic Teaching Department, China)

Unmanned Aerial Vehicle Trajectory Planning Based on Enhanced Sparrow Search Algorithm 136
Anru Tang (Jiangnan University, China), Yian Liu (Jiangnan University, China), and Hailing Song (Naval Research Institute, China)

Active Blanket Jamming Identification Method Based on Rough Set and Decision Tree 141
Jianghu Chen (Jiangnan University, China), Yian Liu (Jiangnan University, China), and Hailing Song (Naval Research Institute, China)

Research on the Application of Improved Salp Swarm Algorithm in Time Difference of Arrival of Passive Location 146
Yu Zhang (Jiangnan University, China), Yian Liu (Jiangnan University, China), and Hailing Song (Naval Research Institute, China)

Design of Automatic Exhaust Control System of Central Heating System Based on S7-200 SMART PLC 151
Qi Feng (Jilin University of Chemical Technology, China), Tian-le Sun (Electric instrument center of Jilin Petrochemical Company, China), Zhang Zhuo (Water Treatment Department Gongzhuling Drilling Machinery Plant, China), and Gang-fu Lv (Equipment Department Jilin Jiafeng Environmental Protection Equipment Co., LTD., China)

Optimal Design of FIR Filter Based on Improved Artificial Bee Colony Algorithm 155
Changsheng Fang (Hebei University of Technology, China), Xiangwei Huang (University of Electronic Science and Technology of China, China), and Kewen Xia (Hebei University of Technology, China)

Research on Vehicle ECU Application Program Update System Based on SAE J1939 Protocol 159
Chenge Luo (Wuhan Huaxia Institute of Technology, China)

Application of Improved Genetic Algorithm in Cruise Missile Route Planning 163
Ju Zhang (Jiangnan University, China), Yian Liu (Jiangnan University, China), and Hailing Song (Naval Research Institute, China)

Research on Dynamic Motioning System for Virtual Reality System of Human Occupied Vehicle .. 167
Weidong Qian (China Ship Scientific Research Center, China), Xin Zhao (China Ship Scientific Research Center, China), Zhifeng Tian (China Ship Scientific Research Center, China), Yuan Xu (China Ship Scientific Research Center, China), and Da Lin (China Ship Scientific Research Center, China)

Ant Colony System with Sparse Pheromone 171
Mengfan Jin (Beijing University of Posts and Telecommunications, China), Guangtao Fu (Beijing University of Posts and Telecommunications, China), Tianhao Fa (Beijing University of Posts and Telecommunications, China), Zhibin Huang (Beijing University of Posts and Telecommunications, China), and Zhiqiang Chu (State Administration for Market Regulation, China)

A Novel Object Tracking Algorithm Based on Mean Shift Algorithm and SURF 175
Xiaoqin Ma (Chizhou University, China) and Lulu Li (Yulin Normal University, China)

Research on Two-Stage Conveying Bar Counting and Dividing System Based on Vision 180
Guojun Chen (Wuxi Taihu University, China) and Yang Wu (Wuxi Taihu University, China)

Reliability Analysis of Swarm Self-Security Intelligence System Based on Fault Tree and Monte Carlo Simulation 184
Jie Hu (Chizhou University, China), Kezhong Lu (Chizhou University, China), and Huajie Su (Chizhou University, China)

Target Power Determination for Real-Time Stabilization of Grid-Connected Offshore Wind Power Fluctuation 188
Yuwei Chen (PowerChina HuaDong Engineering Corporation Limited), Hongke Li (PowerChina HuaDong Engineering Corporation Limited), Qing Chen (Powerchina Huadong Engineering Corporation Limited), and Qiang Yang (Zhejiang University, China)

An Improved Hybrid Method for Power System Reliability Assessment 192
Liping Qu (Beihua University, China), Tailu Gao (Beihua University, China), Jie Zhang (Beihua University, China), Bin Liu (Beihua University, China), and Wenchao Cui (Beihua University, China)

A Method to Improve the Precision of 2-Dimensioanl Size Measurement of Objects through Image Processing 197
Erbing Yang (Fuzhou University, China), Meiqing Wang (Fuzhou University, China), Hang Cheng (Fuzhou University, China), Rong Liu (Fuzhou University, China), and Fei Chen (Fuzhou University, China)

Research on 3D Simulation Technology of Multi-Fragment Damage Assessment Based on Distributed Computing 201
Maocai Yuan (Wuxi Orient Software Technology Co., Ltd., China), Kun Li (Wuxi Orient Software Technology Co., Ltd., China), Yujiao Fan (Wuxi Orient Software Technology Co., Ltd., China), Hao Zheng (Wuxi Orient Software Technology Co., Ltd., China), and Yuchong Xu (Wuxi Orient Software Technology Co., Ltd., China)

Overcomplete Deep Low-Rank Subspace Clustering 205
Yongmeng Feng (Jiangsu University of Technology, China) and Congzhe You (Jiangsu University of Technology, China)

Research on Unmanned Vehicle Path Planning Based on Improved Bat Algorithm 209
Yizhu Jiang (Wuhan University of Technology, P.R China), Yefu Wu (Wuhan University of Technology, P.R China), and Miao Wang (Chongqing Guoyuan Port Co., Ltd, China)

Intelligent Transportation

Research on Modeling Method of Transportation Cyber-Physical System 213
Xiaosheng Cai (Guangdong University of Technology, China), Haoduo Chen (Guangdong University of Technology, China), and Lichen Zhang (Guangdong University of Technology, China; Guangzhou Vocational and Technical University of Science and Technology, China)

Road Rage Recognition System Based on Speech Features 217
Yang Li (Zhejiang University, China), Wenjing Wang (Jinhua Institute of Zhejiang University, China), and Xinmin Xu (Zhejiang University, China)

Prediction of Urban Traffic Congestion Time by BPneural Network 221
Haoran Liu (Shandong University of Science and Technology, China), Suyan Zhao (Shandong University of Science and Technology, China), Xin Liu (Shandong University of Science and Technology, China), and Jie Li (Shandong University of Science and Technology, China)

Fatigue Detection for Public Transport Drivers under the Normalization of Epidemic Prevention 225
Zhe Yu (Hubei University, P. R. China), Lei Li (Hubei University, P. R. China), Lijun Xu (Hubei University, P. R. China), and Kansong Chen (Hubei University, P. R. China)

Network Security

Application of Ship Data Based on Blockchain 229
Zixiang Liu (China Ship Scientific Research Center, China), Cheng Cheng (China Ship Scientific Research Center, China), Feng Zhao (China Ship Scientific Research Center, China), Xiang Wang (Fengshun Technology Information Service Co. Ltd, China), and Feng Wu (Fengshun Technology Information Service Co. Ltd, China)

RIS-Aided Channel Construction in Random Opportunistic Networks 233
Fei Gao (Wuhan University of Technology, China) and Xin Yan (Wuhan University of Technology, China)

Security Protection of Research Sensitive Data Based on Blockchain 237
Cheng Cheng (China Ship Scientific Research Center, China), Zixiang Liu (China Ship Scientific Research Center, China), Feng Zhao (China Ship Scientific Research Center, China), Xiang Wang (Hangzhou Fengshun Technology Information Service Co. Ltd, China), and Feng Wu (Hangzhou Fengshun Technology Information Service Co. Ltd, China)

Secure Verifiable Outsourced Watermark Embedding Framework in Multi-User Settings 242
Wanxi Yan (FuZhou University, China), Hang Cheng (FuZhou University, China), Meiqing Wang (FuZhou University, China), Hehui Ye (FuZhou University, China), Qinjian Huang (FuZhou University, China), and Li Wu (FuZhou University, China)

Model Checking the Reliability of Blockchain-Based Edge Computing Network 246
Kai Zheng (Wuxi Taihu University, China), Xiang Yao (Wuxi Taihu University, China), Zhe Zhang (Wuxi Taihu University, China), and Liyou Fang (Wuxi Taihu University, China)

Other Topics

Numerical Simulation of Particle Interception Efficiency on Different Fiber Shapes 250
Xinyi Lin (Fuzhou University, China), Jingyue Wang (Fuzhou University, China), Meiqing Wang (Fuzhou University, China), Shumin Guo (Xiamen University, China), Gaofeng Zheng (Xiamen University, China), and Choi-Hong Lai (University of Greenwich, UK)

Distributed Filter State Estimation of Topological Random Switching in WSN 254
Xiang Yao (Wuxi Taihu University, China)

Research Hotspots and Trends of Rural Revitalization Assisted by Farmers' Cooperatives - Citespace Analysis Based on 2097 Articles 258
Chenyu Wang (Guilin University of Electronic Technology, People's Republic of China) and Qian Lu (Guilin University of Electronic Technology, People's Republic of China)

Rural Revitalization Driven by Digital Economy: Theoretical Explanation and Practical Path..... 262
Gang Li (Guilin Institute of Information Technology, People's Republic of China), Jinghao Zhao (Guilin University of Electronic Technology, People's Republic of China), Zemin Hu (Guilin University of Electronic Technology, People's Republic of China), and Lu Shi (Guilin University of Electronic Technology, People's Republic of China)

Study on Atmospheric Corrosion of Metal Based on Electrochemical Noise 266
Huanhuan Hu (Chizhou University, China), Jiezhen Hu (Guangdong Ocean University, China), and Wenchang Yu (Chizhou University, China)

Analysis of SPOC in Local Engineering Universities --Taking the Online Course of Qingdao University of Science and Technology as an Example 270
Dan Zhang (Qingdao University of Science and Technology, China), Ying Wang (Qingdao University of Science and Technology, China), and Zhe Wang (Qingdao University of Science and Technology, China)

Summarisation of E-Commerce Workers' Workplace Stress Sources – Current Evidence Analysis and Reflections 274
Yining Xu (University of New South Wales)

Continuous-Variable Measurement-Device-Independent Quantum Key Distribution with Passive State in Oceanic Turbulence 278
Guojun Chen (Wuxi Taihu University, China), Jianmin Yi (Wuxi Taihu University, China; Central South University, China), and Ying Guo (Wuxi Taihu University, China; Central South University, China)

Development and Application Mode Design of Complex Ship Numerical Simulation System Based on Saas 282
Ji Zhao (WuXi City College of Vocational Technology, China) and Cheng Cheng (China Ship Scientific Research Center, China)

Research on Efficient Operation Technology of Ship General Performance Prediction App in Complex Environment 287
Weidong Qian (China Ship Scientific Research Center), Yuan Xu (China Ship Scientific Research Center), Zhifeng Tian (China Ship Scientific Research Center), Da Lin (China Ship Scientific Research Center), and Ganjiang Sun (CSSC Orient Wuxi Software Technology Co., Ltd, China)

Author Index **291**
