

# Preface

## DCABES 2022

The 21st International Symposium on Distributed Computing and Applications for Business, Engineering and Science (DCABES 2022) conference is one of DCABES series conferences, started in 2001 that are devoted to algorithms and architectures for parallel processing, it involves Artificial Intelligence, Algorithm Complexity Theory, and so on.

The DCABES 2022 will be held on October 14~18, 2022 in Chizhou University, Chizhou, Anhui province, China. The conference will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications.

We were pleased that the DCABES 2022 conference received papers of submissions covering a wide range of topics, such as parallel algorithms and Artificial Intelligence, Big data, Intelligent Computing, Optimization Algorithm and Its Application, Computer Technology and Application, etc.

All papers contained in these proceedings have been peer reviewed and carefully chosen by members of the Program Committee, Proceedings Editorial Board, and external reviewers. We would like to thank all members of the Scientific Committee, the Local Organizing Committee, the Proceedings Editorial Board, and external reviewers for selecting the papers.

Sincere thanks are also given to the Ministry of Education (MOE) of China, National Nature Science Foundation of China (NSFC), Jiangnan University and Chizhou University, also the EasyChair website. Finally, we also want to thank Prof. Wei Fang, Prof. Kezhong Lu, Dr. Zhiguo Chen and Xiang Wang for their efforts in conference organizing activities. Without their help and dedication this conference could not have been such a success.

As the Covid-19 pandemic is not yet fully over, we will use a combination of online virtual meetings and small offline meetings to effectively prevent the spread of the disease. I wish DCABES 2022 a successful in advance.

Xu Wenbo  
***DCABES 2022 Chair***

Xiaojun Wu and Jun Sun  
***DCABES 2022 Co-Chairs***
